

SLIDE for Accessibility Checking

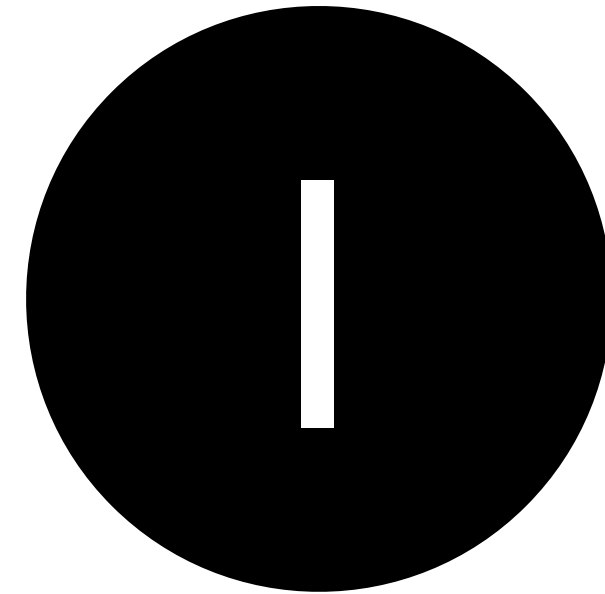

Styles

e.g. **Heading styles** are used to structure information. Titles are unique and descriptive.

Links

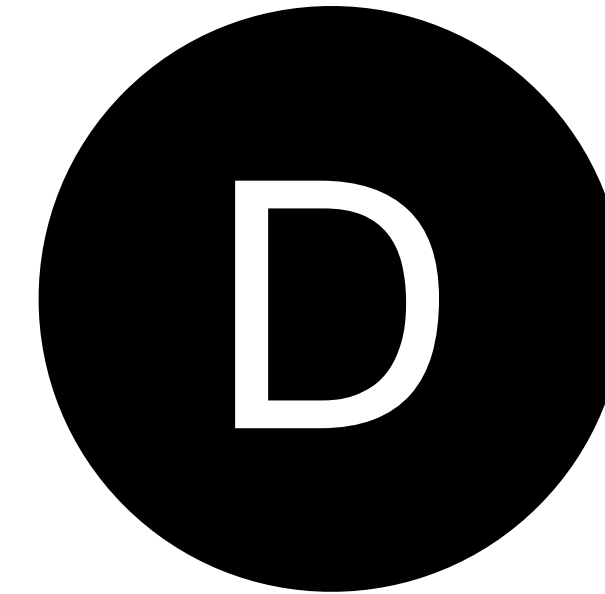

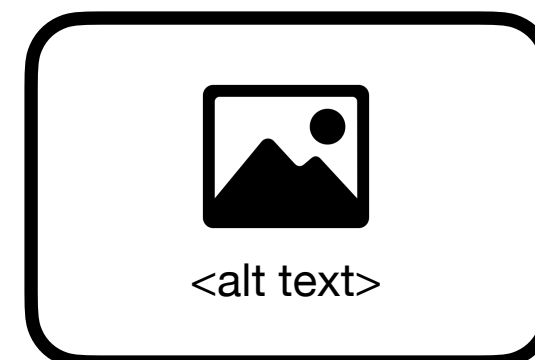

Hyperlinks are meaningfully embedded and descriptive.

Images

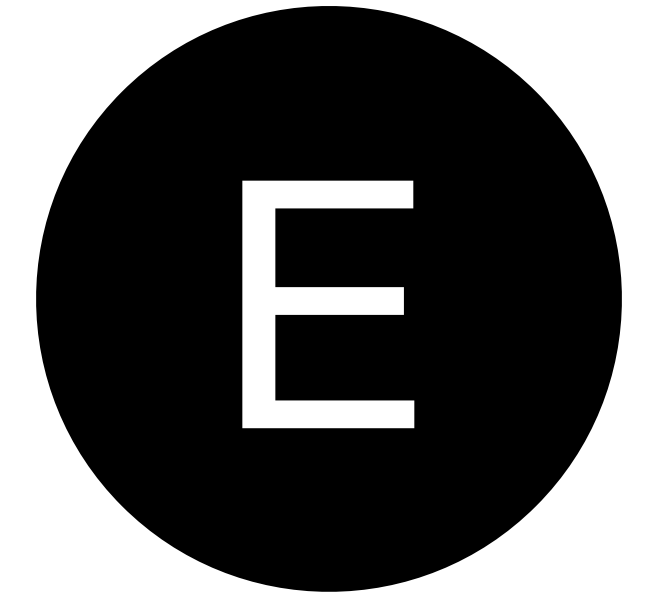

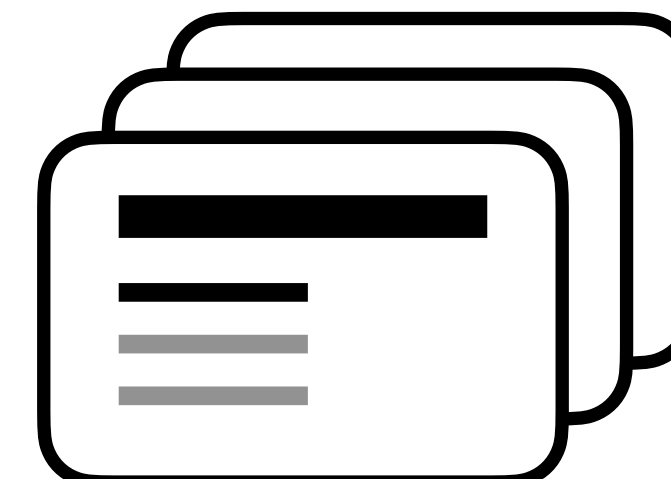

All images include **alt text** (or alternative text), whether they are:

- informative
- decorative
- functional

Design

Design is **clear and simple**. Consistent use of layouts, font, alignment, colour and contrast is applied.

Evaluation

Use built-in **Accessibility Checker** tools available (e.g. in MS PowerPoint etc.)
