

## How to delete a submission in a Canvas Turnitin Assignment:

1. In Canvas, Go to the main page of the assignment and scroll down to view the Turnitin assignment inbox.
2. Enter the student name or submission ID in the 'Search' box and it should then display that single submission.
3. Click on the three dot ellipsis under options on the right-hand side and select 'delete' then 'confirm'.

Please submit a 1000 word essay on the History of Canvas.

- Do not under any circumstances login and submit directly through the Turnitin website.
- If you are having difficulties submitting you should **Submit a Support Ticket** via **Help Menu** in Canvas as soon as possible.

4. Note that deleting the submissions in this way won't remove them from the Turnitin database repository so the original submission would show as a source in the Similarity report and the score could be high - however this could be disregarded by following the guidance on how to exclude sources here: <https://help.turnitin.com/feedback-studio/lti/instructor/similarity-report-exclusions/excluding-sources.htm>
