About BIT

Founded in 1940, Beijing Institute of Technology (BIT) stands as one of China's national key universities, consistently recognized and included in the prestigious "211 Project", "985 Project", and "Double First-Class" initiatives for universities. BIT enjoys a prominent position in both domestic and global educational spheres, boasting widespread influence reflected in its accolades including a rank of 340 in the 2024 QS World University Rankings, a placement within the 101-150 range in the 2023 Academic Ranking of World Universities (ARWU), and a commendable 9th place in mainland China according to the QS Global Graduate Employability Rankings 2022.

While science and engineering constitute its primary focus, BIT maintains a harmonious development across other fields including management and humanities, with many of its disciplines consistently ranking within the top 10 in China. In recent years, BIT has elevated its international stature through the steadfast execution of an internationalization strategy, fostering a "big community" for the cultivation of global talents and continually enhancing the quality of its educational offerings. This forward-thinking approach extends to creating a cosmopolitan learning and living environment on campus, a testament to its evolving international presence and influence. Today, BIT takes pride in nurturing a vibrant and diverse student body that surpasses 2,800 international students from 149 countries around the world.

Find your interest at BIT

In recent years, Beijing Institute of Technology successfully held on-campus and online programs in winter and summer seasons, attracting more than 500 students annually. For the summer of 2024, BIT is set to offer an array of on-campus summer programs tailored to your interests in the fields of management, athletics and Chinese language and culture.

● Aesthetics of Traditional Chinese Culture and Classical Chinese Humanities (Liangxiang Campus)

Join the BIT community this summer to gain new perspectives on traditional Chinese culture through a variety of courses in art practice, art appreciation, literature, philosophy and so much more. Thriving in a culturally diverse society, you'll grow a deeper understanding on Chinese culture and humanities, and develop your own creativity. This program has been designed to expand your mind, inspire curiosity, and facilitate discovery.

● Management and Innovation

The program will provide you with valuable economic and management insights and skills in an intensive summer session. You will gain a solid grounding in the fundamental principles of international trade and entrepreneurship, and apply your new knowledge to case studies based on real-world scenarios. In this program, conceptual and practical knowledge will be developed through analysis at both macro and micro levels.

● Chinese Kung fu

This program is targeted toward teenagers looking to experience 800 year-old ancient sports and improve their Tai chi level. Directed by professional coach, world Tai chi champion, Huifang QIU, the program will give technical and tactical instructions and provide an opportunity to play with and against other top players. Incorporating movements, breathing exercises and meditation, Tai chi can improve your posture, breathing, concentration, and inner peace. By learning Tai chi in China, you can also gain a deeper understanding of Chinese culture and philosophy.

● Chinese Language and Multicultural Practice

Open to anyone interested in learning Mandarin and exploring the Chinese way of life. You will study alongside peers from various cultural and academic backgrounds and gain firsthand experience of Chinese culture.

Note: 1. All the programs will be conducted in English.

2. The student number for each program is less than 10, the program will be cancelled.
